

SEQENS QUALITY POLICY

-  Seqens is a worldwide actor in pharmaceutical synthesis and specialty ingredients, offering a wide range of products, services and technologies.
-  Seqens Quality Policy is established on fundamental operating principles, complying to regulatory requirements, data integrity and standard industry best practices.
-  To ensure Seqens products are consistently delivered safely and reliably to customers and patients, Seqens is committed to:
 - Manage activities through a comprehensive Quality Management System in compliance with international standards, applicable regulations and guidelines (cGMP, ISO);
 - Remain constantly attentive to customers' expectations to ensure their satisfaction and develop new partnerships;
 - Manage effectively and sustainably relationships with our stakeholders and suppliers;
 - Perform operations ensuring products quality and safety of use in order to serve the patients;
 - Improve continuously the efficiency and reliability of all our activities;
 - Develop the workforce's qualifications, skills, behaviors and effectiveness through individualized support and training, and to encourage empowerment at work;
-  All Seqens employees and third parties working on behalf of Seqens must comply with the above commitments.
-  Each Seqens manager is responsible to deploy and ensure compliance with Seqens Group Quality Policy.
